

SAFETY POLICY STATEMENT

At Airborne Solutions SAFETY is “the way we do business”.

The Directors and Executive Leadership Team of Airborne Solutions are committed to providing safe, healthy and environmentally aware working conditions and the highest level of safety awareness and practice within the Company with the goal of achieving an accident-free workplace through the implementation of and adherence to enhanced Safety and Quality Management Systems.

Our culture is based on the principles of continual improvement, training, vigilance, prevention and open communication. Each and every person within the Company has an integral role to play.

The single most important element of our Safety Management System is the support and commitment of our people and our Executive Leadership Team.

Airborne Solutions' Directors and Executive Leadership Team confirm our commitment to:

- Developing an embedded safety culture in all of our activities that recognises the importance and value of effective aviation safety management and acknowledges, at all times that safety is paramount.
- Clearly defining for all employees their accountabilities and responsibilities for the development and delivery of aviation safety strategy and performance.
- Minimising the risks associated with aircraft operations to a point that is as low as reasonably practicable/achievable.
- Ensuring that externally supplied systems and services that impact upon the safety of our operations meet appropriate safety standards.
- Actively developing and improving our safety processes.
- Complying with and, wherever possible, exceeding legislative and regulatory requirements and standards.
- Ensuring that all employees are provided with adequate and appropriate aviation safety information and training and are only allocated tasks commensurate with their skills.
- Ensuring that sufficient skills and training resources are available to implement safety strategies and policy.
- Establishing and measuring our safety performance against realistic objectives and targets.
- Achieving the highest levels of safety performance in all of our activities.
- Continually improving our safety performance.
- Conducting safety and management reviews and ensuring that relevant action is taken; and
- Ensuring that the application of effective aviation safety and quality management systems is integral to all our aviation activities, with the objective of achieving or exceeding the highest levels of safety standards and performance.
